

Used Ports

Voice Recording System VC-MDx

Version V2201

VoiceCollect Applications:

a) VC-MDX Recorder

| | |
|---------------------------------|---|
| Administrator | TCP 3700 |
| Workstation - data | TCP 3701 |
| Workstation - playback | TCP 3702 |
| Workstation - monitoring | TCP 3709 |
| RemoteTTL | TCP 3710 |
| CSTA | TCP 1307 |
| ARMS | TCP 1308 |
| RCI | TCP 1309 |
| RC4000 | TCP 1312 |
| AudioCenter | TCP 1316 |
| UPS Server | TCP 1317 |
| LCR (directory information) | TCP 1300 |
| LCR (audio streaming) | TCP 1303 |
| Intelligent Backup | TCP 3703 (implicit) |
| Timeserver/Client | TCP 1325 |
| Marker | TCP 1410 |
| CSTA Selkom | TCP 7000 (default), configurable |
| R31 | TCP 9000 (default), configurable |
| SNMP implementation | TCP 14000, 14001 |
| Equalization | TCP configurable in VC-MDx Configurator |
| SIP | UDP 5060 (configurable) |
| SIP Register | UDP (SIP +1) |
| VDS-II configuration connection | TCP 8510 (default) configurable |
| VDS-II data connection | TCP 8540 (default) configurable |
| Database PostgreSQL | TCP 5432 |

b) VC-MDX Workstation

| | |
|----------|--------------------------------------|
| Play SIP | UDP 5060, 5061(default) configurable |
| Skysoft | UDP 5611(default) configurable |

c) VC AudioCenter

| | |
|-----------------------|------------------|
| Workstation - data | TCP 3701 |
| Workstation- playback | TCP 3702 |
| AudioCenter_UI | TCP 3750 |
| SNMP implementation | TCP 14000, 14001 |

d) RIAB-II

| | |
|--------------------------|---------------|
| Configuration connection | TCP 8510,8511 |
| Data connection | TCP 8540 |

All ports listed must be opened bi-directionally in the respective firewalls.
