# **Configuration Guide**

## **Central User Management**

# Voice Recording System VC-MDX

Version 2207

VoiceCollect GmbH | Justus-von-Liebig-Str. 5 | 61352 Bad Homburg | Germany voicecollect@voicecollect.de

#### Introduction

The Central User Management (CUM) software is mostly used in larger projects in which several recorders, playback clients and many different users with different access rights and roles are in use. It offers central, client-capable user and rights management for one or more VC-MDx recorders and offers the advantage that the time-consuming setup and configuration of multiple users on individual recorders is saved and is taken over centrally by the CUM. Users are created in CUM, assigned to recorders and the corresponding rights configured. User rights can be defined by roles or by granting access to single functions. Different options to management passwords are available.

After creating user, assigning passwords, defining rights and rules, the CUM tool updates the user administration of the local VC-MDx recorders and users can then access a recorder and evaluate recordings according to their rights.

The CUM application and a required PostgreSQL database will be installed on a separate server.

After CUM application is installed, please start the CUM application. First you have to configure the CUM server settings:

#### 1. Choose SQL Server Setting

🖳 Users Manager	×
User name: Password:	
Øsc	QL Server Settings
√ОК	Cancel

#### 2. Type IP Database VC-MDX CUM

💀 Database Settings	×
Name or IP:	10.10.10.41
Server type:	Postgre SQL
SQL Server Port	5432
SQL Server Authentication	
User name:	
Password:	
√ок	Cancel

Name or IP: "localhost" will appear. Please enter IP adress, Server Type must be PostgreSQL

Confirm with "OK"

#### 3. Login as Super

🖳 Users Manager	×
User name: Password:	Super
Ja SG	L Server Settings
√ОК	Cancel

Press "OK" you are now connected as Super, Main view **Userlist** appears, next step is to add users

#### 4. Choose Add User

📓 Centralized Us	📓 Centralized User Management - 🗆 🗙				×
(	⚠ Update Recorders!				
Manage Users -					
User name	Full name		Type		_
Super			Super		
,					
🗣 Add User		🛿 Edit User		🕵 Delete	User
Export Users Import Users Logs About					

The following instructions show an example how 3 Users (User A, User B, User C) with access to 2 VC-MDx Recorders (here SRV1 and SRV2) with different rights are added and configured.

#### 5. Add User A

- add the user name
- assign password
- assign rights
